

How good are PartnerMD's employee health programs? Almost too good.

*** INTERNAL EMPLOYEE MEMO – PLEASE READ ***

In light of a recent spike in productivity due to PartnerMD's employee wellness programs, please observe the following new rules and regulations:

- We require that you remove headbands and turn off pedometers before all board meetings.
- Due to heavy foot traffic, please stay to the right when using the company stairwells.
- Due to recent inactivity, the elevator has been repurposed into Mobile Storage Unit A.
- Please refrain from sending us additional 'thank-you' emails for lowering your health insurance premiums. The server crashed.
- The atrium fountain should not be used as a shower under any circumstances.

Have a nice day.

– Management

See how PartnerMD's physicians & wellness staff can create some healthy new problems for your HR department to solve.
